TEST SITE:

Description: The draft test rules state that the handler should use equipment suitable for the test terrain.

Echo Valley Farm, 82631 Weiss Rd., Creswell, OR– This test site is Private Property on a working farm. This rural location sits on a dead-end county paved road and consists of wooded hills and lowlands, pasture area with a creek bisecting the property. There is a pond near and picnic area that will be used for hospitality and base camp, this is where the club will have porta pots, as well as a mown pasture set aside for parking and camping. Several buildings on the property house equipment and livestock and they are connected by gravel roads. Paths of dirt, mown grass and bark chips crisscross the entire farm. PNNC has been granted access to over 90 acres of farm. The committee has designated a nice size field near the picnic area with trees, a gravel road crossing and a small hill as the ideal area for BDD, DD and DDX maneuvering courses. The freight haul will traverse gravel, pavement, wood chips and mown grass as it weaves around the farm, up and down hills through the forested areas and out into open pasture. Much of this path is shaded. In this way the freight haul will pass near the goat yard as well as chicken and duck coops, and along the pond and or creek giving ample natural distractions. Fall in the Pacific Northwest can have varied weather throughout a given day. Prepare for both rain wind and cold weather. Please observe the on-leash policy. All dogs must be on no more than an 8ft leash unless testing. Anyone having further questions concerning the test site should contact the test secretary for details.
